

Assistance League® of Flintridge Instrumental Music

Behavior Standards

The Instrumental Music program is intended for students who are genuinely interested in learning to play an instrument and perform in a group setting. Because of the responsibility placed on each student and because of the necessity for harmonious group interaction, any student who is discourteous, disruptive or uncooperative will not be retained.

Procedure

If students are discourteous, disruptive or uncooperative, the following steps will be taken:

1. First infraction: The student will be warned and the warning recorded.
2. Second infraction: The student will be warned and parents notified. The warning will be recorded.
3. Third infraction: The student will be excluded from further participation in the program. The principal and parents will be notified. Any rented instrument must be returned immediately.

As an acknowledgement of the above, parents sign the Behavior Standards agreement as part of the online Music Registration process.

Keep this explanation of behavior standards for your records.
