

Assistance League of Flintridge

SUMMER SCHOOL 2024

June 17 through July 12

Registration is open. Classes are still available. Check these out!

Book Club - Grades 2-3, 4-5

Read popular chapter books together for fun to enhance reading, vocabulary, fluency and comprehension skills.

Bugs, Buds & Botany - Grades 2-3

Art meets Science in this hands-on class. Learn about flowers, seeds, leaves, and insects and their inter-relationships within our environment. Projects include growing edible plants. Students also learn to arrange fresh flowers and create artwork from dried flowers that they press themselves.

Jump Start Your Art - Grades 2-3

“Drawing” from the world around them, students will have fun illustrating their favorite characters, animals, and places using a variety of methods.

Math Exploration - Grades 2, 3, 4, 5 & 6

Become a problem solver! Learn the math skills needed for problem solving and critical thinking. Manipulative materials will be used to expand math skills.

Sensible Critters - Grades 2-3

What critter has ears on its legs? What critter can smell food 12 miles away? These questions and more are answered exploring the 5 senses we share with many of our animal friends. Learn about science and the unique traits of animals through critter crafts and stories.

Strategy Games - Grades 4-6

Do you know how to play chess? Do you want to learn how to win at Chinese Checkers? Explore the rules and strategies of these games and a variety of other games such as Uno, Risk, Stratego and Mastermind.
